

START OF THE INTERNATIONAL SUPPLIERS FAIR (IZB) IN WOLFSBURG ON 16.10.2018

At this year's IZB, we will be presenting our logistics solutions - and a world first. With TransportControl, we have developed the first manufacturer-independent control system for driverless transport systems.

Visit us in hall 1 at booth 1123 and get to know us personally in an informal atmosphere. We will be happy to give you an insight into our technologies and how our customers can take advantage of technological innovations. Microsoft Kinect, Google Glass, RFID, SAP Cloud Platform, Internet of Things - we have transferred all of this and more into everyday logistics.

Have we aroused your interest? Then we'll see you at the IZB from 16 to 18 October.
